1. WordPress Installation

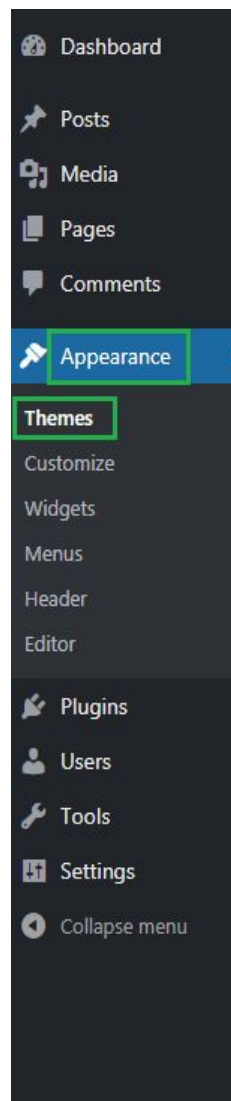

- New to WordPress?
 - Go through [WordPress Installation Process](#) mentioned on wordpress.org

2. Theme Installation

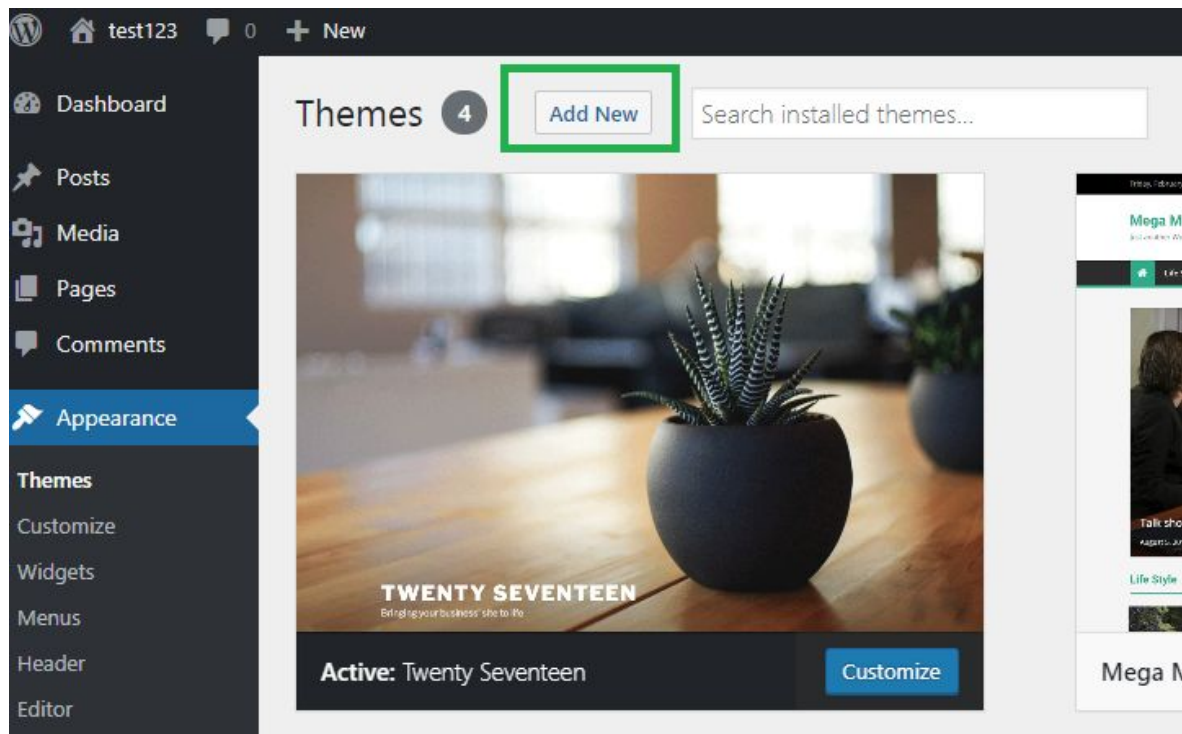

Installing the Medical Way Plus theme is easy as pie! Please find the steps for installing via WordPress Dashboard or via FTP below

2.1 Installation via WordPress Dashboard

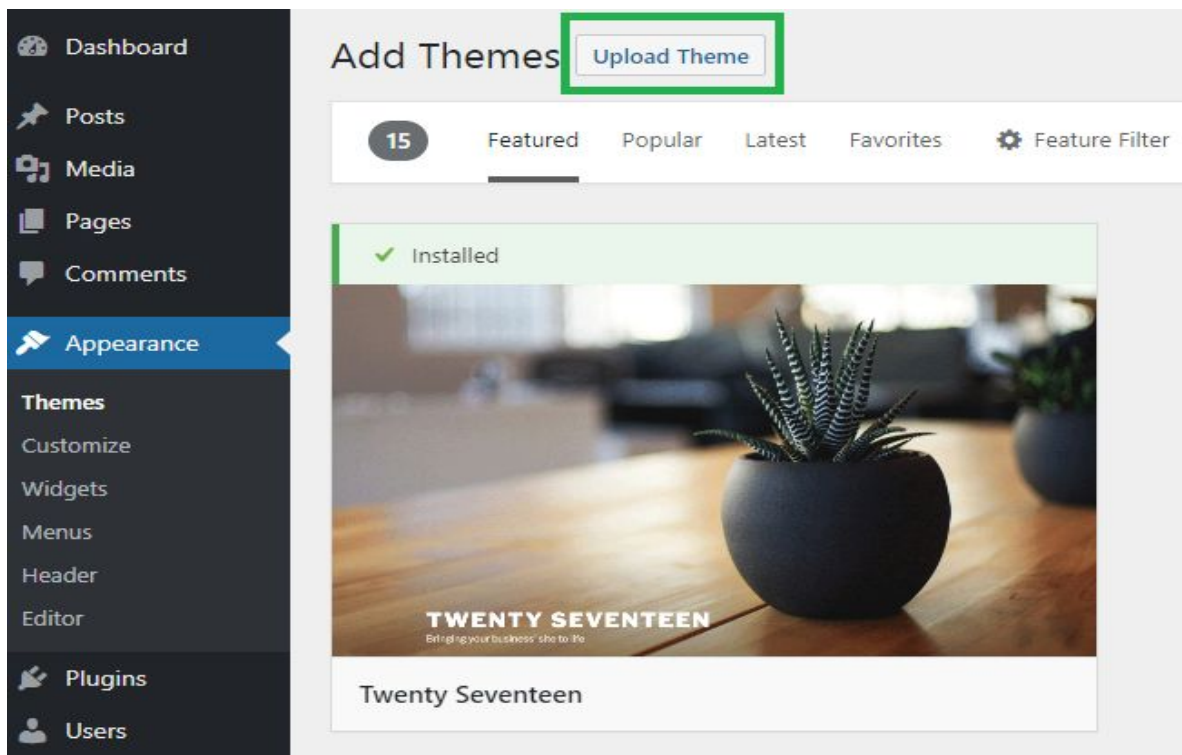

- Download theme zip by logging in to your ProDesigns account
- In your WordPress admin, go to **Appearance > Themes**

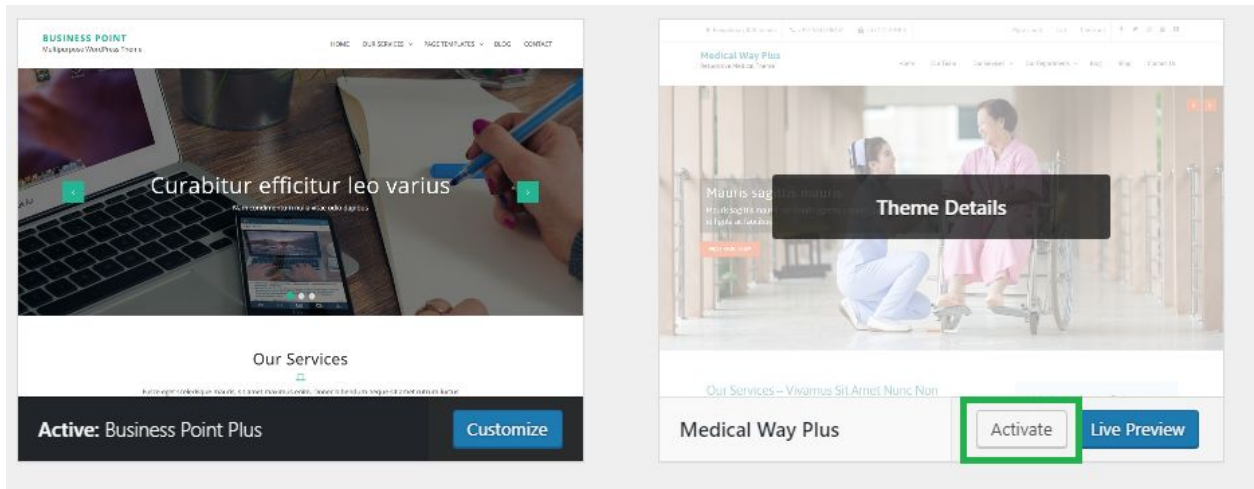

- Locate and click the "Add New" button

- Next, locate and click "Upload Theme"

- Upload the theme zip file here downloaded in step 1
- Go back to **Appearance > Themes** and click on "Activate" to activate the theme

2.2 Installation via FTP

- Download theme zip by logging in to your ProDesigns account
- Extract/Unzip the downloaded zip
- Using your favorite FTP client upload the theme folder to your WordPress Installation themes folder ie **/wp-content/themes**
- Go to **Appearance > Themes** and click on "Activate" to activate the theme
